Tiki CMS/Groupware, ook bekend als Tikiwiki, is een krachtig web-gebaseerd Groupware en Content Management System (CMS), dat gebruik maakt van PHP, ADOdb en smarty. Het kan worden gebruikt om allerlei vormen van Webapplicaties te maken, Sites, Portals, Intranets en Extranets. Er kan bijvoorbeeld ook een GeoCMS (Geospatial Content Management System) mee gemaakt worden. Het wordt ontwikkeld door een groot aantal deelnemers die de Tikiwiki Community vormen.

Deze website bevat een gedeelte van de activiteit van deze comunity. Kijk ook eens bij de recente documentatie bijdrage op http://doc.tiki.org, bekijk de TikiMovies, en kijk rond in Help. Deze website is erg groot, een beetje 'open' en vrijblijvend in zijn samenwerkings verband, dus wees niet verbaasd over de diversiteit van de 1500 wiki pagina's die hier te vinden zijn.

Tips:

Op de ... dochter-site van tiki.org kunt u overigens ook in contact komen met de nederlandstalige Tiki gemeenschap. Iedereen is van harte welkom!

Tiki's beveiliging is belangrijk voor ons:: Lees TikiSecurity en help mee om Tiki nog beter te beveiligen.

Tiki Roundtable Meeting - November 2021

Author: Gary Cunningham-Lee - Published 16 Nov 2021 15:10 GMT-0000

We will be having our monthly community meeting Sunday, November 21, 2021 at 15:00:00 UTC, and everyone using Tiki or otherwise interested in Tiki is invited to attend. This is a casual online (virtual) meeting, and there are no special technical requirements to participate.

Please come to tiki.org/live. For more information, and to see the agenda, please visit Roundtable Meeting 2021 11.

Coming Soon: TikiFest Virtual 2021

Author: Gary Cunningham-Lee - Published 22 May 2021 17:06 GMT-0000

TikiFest Virtual 2021 will be held from June 2 to June 5, and everyone is invited to get together online at tiki.org/live for presentations and discussions.

The open source Tiki Wiki CMS Groupware provides tools for remote collaboration integrated with a wiki, calendar, and database features, among others, so we will be using these in-house tools for the virtual Tikifest.

The Covid-19 pandemic is still impacting travel and other activities around the world. Unfortunately, then, it isn't possible yet to hold a normal in-person TikiFest, to meet and work together in one place for a few days. But with Tiki providing the tools for remote collaboration, we're doing the next-best thing: we're having another virtual TikiFest, following the first one held a year ago.

During the TikiFest, some time slots might have parallel tracks for developers and users (advanced or new) but in any case there will be something for everyone, no matter whether you are a Tiki veteran or are new to Tiki and want to discover how we do things the Tiki way.

Everyone is invited to take part in the Tiki community life and the Tiki project.
