Welkom bij Tikiwiki!

Tiki CMS/Groupware, ook bekend als Tikiwiki, is een krachtig web-gebaseerd Groupware en Content Management System (CMS), dat gebruik maakt van PHP, ADOdb en smarty. Het kan worden gebruikt om allerlei vormen van Webapplicaties te maken, Sites, Portals, Intranets en Extranets. Er kan bijvoorbeeld ook een GeoCMS (Geospatial Content Management System) mee gemaakt worden. Het wordt ontwikkeld door een groot aantal deelnemers die de Tikiwiki Community vormen.

Deze website bevat een gedeelte van de activiteit van deze comunity. Kijk ook eens bij de recente documentatie bijdrage op http://doc.tiki.org, bekijk de TikiMovies, en kijk rond in Help. Deze website is erg groot, een beetje 'open' en vrijblijvend in zijn samenwerkings verband, dus wees niet verbaasd over de diversiteit van de 1500 wiki pagina's die hier te vinden zijn.

Tips:

Op de ... dochter-site van tiki.org kunt u overigens ook in contact komen met de nederlandstalige Tiki gemeenschap. Iedereen is van harte welkom!

Tiki's beveiliging is belangrijk voor ons:: Lees TikiSecurity en help mee om Tiki nog beter te beveiligen.

Discover the new Tiki23 that will be release very soon, follow the discussion and progress on new technologies added or may be added to Tiki, learn about cache improvement and error reporting, improve your code skills by following coders work, etc... Many topics during 4 days from June the 2nd to the 5th 2021

Coming Soon: TikiFest Virtual 2021
Author: Gary Cunningham-Lee - Published 22 May 2021 17:06 GMT-0000

TikiFest Virtual 2021 will be held from June 2 to June 5, and everyone is invited to get together online at tiki.org/live for presentations and discussions.

The open source Tiki Wiki CMS Groupware provides tools for remote collaboration integrated with a wiki, calendar, and database features, among others, so we will be using these in-house tools for the virtual Tikifest.

The Covid-19 pandemic is still impacting travel and other activities around the world. Unfortunately, then, it isn't possible yet to hold a normal in-person TikiFest, to meet and work together in one place for a few days. But with Tiki providing the tools for remote collaboration, we're doing the next-best thing: we're having another virtual TikiFest, following the first one held a year ago.

During the TikiFest, some time slots might have parallel tracks for developers and users (advanced or new) but in any case there will be something for everyone, no matter whether you are a Tiki veteran or are new to Tiki and want to discover how we do things the Tiki way.

Everyone is invited to take part in the Tiki community life and the Tiki project.

Tiki 15 reaches end of service life - what are your options?
Author: Marc Laporte - Published 13 May 2021 17:34 GMT-0000

Tiki 15 LTS, first released in April 2016, has reached the end of its service life, so is no longer being maintained by the Tiki Community or receiving security fixes or feature updates. Tiki 15 users are urged to upgrade their site to the latest Tiki Long Term Support version. Organizations that for some reason choose to continue using Tiki 15 can seek professional enterprise support from a Tiki consultant.

April 2021 Tiki Roundtable Meeting
Author: Bernard Sfez / Tiki Specialist - Published 03 Apr 2021 07:09 GMT-0000

Hello, folks! We have a Tiki Roundtable Meeting coming up!
Please visit: https://tiki.org/Roundtable-Meeting-2021-04

Add your preferred date/time.
Add your topic(s).
And join us at: https://tiki.org/live.

So far we’ll discuss the Tiki22 status and preparations for the Tiki23 release (in June), and continue with the Tikifest preparations (https://tiki.org/TikiFest-Virtual-2021).

More topics may still be added.

See you!

We released Tiki 22.0 (but forgot to tell you about it)

Author: Communications Team - Published 25 Jan 2021 12:00 GMT-0000

The Tiki Community is happy to announce that Tiki 22.0, a new major version (codenamed Corona Borealis), has been released!
We recommend all Tiki users **who are eager to get the latest cutting edge** Tiki version to install it fresh or upgrade their existing sites to **Tiki 22.0** and try it out. For the **LTS** we recommend you wait until Tiki 23.0 is released.
