Analytics Team

The Analytics Team is responsible for everything to do with stats, big data, etc. both in Tiki the software and Tiki as a community.

- **Release responsibilities**
  - Ongoing
  - Tasks
  - Projects
  - Site Analytics
    - Todo
    - Who
    - Questions
    - Related links

**Release responsibilities**

1. Provide stats to the Communications Team
   - How many commits, committers, etc.
   - Monitor % of completion stats, which is mostly automated at [http://i18n.tiki.org/Status](http://i18n.tiki.org/Status) (now offline, but it will return)
   - any other useful stats
2. Update List of all code contributors

**Ongoing**

- Manage our Piwik account
- Manage our Google Analytics account

**Tasks**

**Projects**

- Tiki Software and Community Dashboard
- Tiki Doc Usage
- Analytics Analysis
Site Analytics

This page is to document and coordinate efforts to improve analytics for *.tiki.org sites

As we dogfood, we'll likely have some feature requests for Tiki.

We use Google Analytics.

Todo

- Review setup of GA
- Add Piwik too

Who

Team Analytics

- flor
- Rick Sapir / Tiki for Smarties
- Xavier de Pedro

Questions

- Should we put all sub-domains under the same account?
