Fixing Community Items session

(Why this?)
Closing the Roundtable time we use available time to organize a session to fix a list of bugs from the reports at https://dev.tiki.org/Community+items#Summary and https://dev.tiki.org/Community+items#List

- ...

Tiki community issues (no coding) where volunteers are needed

- ...
Where
http://live.tiki.org

Topics

1st hour quick news

1. Tiki 18 release process -> branching
2. TikiFestFosdem2018 - can we confirm dates yet?
3. ...

Second hour, longer topics

1. If not completed or scheduled, branching should be done
2. changelog.txt nomore generated anywhere - makes it sense to still use the commit [TAG]s?
3. ...

Recording

- https://recordings.rna1.blindsidenetworks.com/citadelrock/d559965849921585c1849af03b7a51638700d979-1511443660203/presentation/?t=00m00s

Follow-Up

Post-branching Checklist
Taken from https://dev.tiki.org/How%20to%20release#Post-branching_operations

1.1.1. Post-branching operations

1.1.1.1. Update $profilesLink

- ✓ In lib/setup/wiki.php, update $profilesLink to the new branch

1.1.1.2. Make new profiles

- Contact the Profiles Team to ask them to make new profiles.

1.1.1.3. dev.tiki.org

- ✓ Create branch page. i.e.: Tiki18
  - (?) Move the current alias from the old branch to the new created one
- ✓ Add the branch as an option for the Tiki Version field in the Bugs & Wish list tracker
- ✓ Update Daily Build (You need to ask Oliver Hertel to add new versions)
- ✓ Update Get code
1.1.1.4. show.tiki.org

- First add the new branch to the dropdown in templates/trackerinput/showtikiorg.tpl
- Remember to backport to the version that the actual dev is running
- in the show server checkout the new branch into usr/local/src/tiki
- in the show server add the branch to /usr/local/sbin/tim-common
  BRANCHES="trunk 12.x 13.x"
- Refresh the instances by calling right away the cron: /usr/local/sbin/tim-cron
- Once dev.tiki.org updates, it should then work.

1.1.1.5. demo.tiki.org

- Create a site for new version

1.1.1.6. Pre-dogfood servers

- Each tw:Pre-Dogfood Server should be moved from trunk to the next branch and each site should go through at least 30 minutes of manual testing of the most common operations.
  Ex.: on http://nextdev.tiki.org, someone should try to report a bug, or on http://nextdoc.tiki.org try and add a new page to a structure (even though it all will be overwritten the next day).
  - the instances need to svn switch and refreshed immediately, e.g.
    +svn switch https://svn.code.sf.net/p/tikiwiki/code/branches/13.x
    +sh setup.sh -n fix
    +php console.php database:update
  - /usr/local/bin/refresh-nxt.sh needs to be updated so the next cron switches to the right branch
  - A couple of days before the release the cronjob to do a full upgrade including DB-sync from live sites must be disabled so that designers and gardeners can test/learn/prepare for the upgrade of the live community sites.
  - After release the /usr/local/bin/refresh-nxt.sh needs to be changed to trunk again and the full upgrade cron job reenabled.

Chat log

Torsten Fabricius (Torsten): I have no working microphone
Torsten Fabricius (Torsten): So I try to listen
Guest: Asa: php doc/devtools/svnbranch.php branches/18.x
Jonny Bradley (jonnybradley): https://dev.tiki.org/How+to+release
Roberto Kirschbaum (robertokir): Here's an interesting list of stars when it comes the time: http://petergreenaway.org.uk/100stars.htm
Guest: Asa: any way to disable this "you are now (un)muted" audio when I mute/unmute?
amette: Asa: I don't think so.
lucia'sh d' being (luci): /me goes to update https://dev.tiki.org/Where-to-commit
Guest: Asa: Branch created: https://sourceforge.net/p/tikiwiki/code/HEAD/tree/branches/18.x/
Jonny Bradley (jonnybradley): http://sourceforge.net/p/tikiwiki/code/64697
Guest: Asa: clicked a link here and left call :-/
lucia d' being (luci): :)  
Jean-Marc Libs (Jyhem): Hi to your family, Gary!  
Gary Cunningham-Lee (chibaguy): They say hi back :-).  
Jean-Marc Libs (Jyhem): How was the cheese, BTW?  
Jean-Marc Libs (Jyhem): I'm muted!!! I can't make noise  
Gary Cunningham-Lee (chibaguy): We have saved the cheese until after moving house (to celebrate), so didn't have it yet, as we're still in the process.  
Jean-Marc Libs (Jyhem): Ahhh...  
Gary Cunningham-Lee (chibaguy): (We moved but still have to finish clearing out the previous house and organizing in the new one.)  
Guest: Asa: I wasn't considering going to FOSSDEM until now (in fact I was not aware yet:-) ). Will think about it, maybe I can join the tiki airbnb  
Torsten Fabricius (Torsten): (y)  
Guest: Asa: https://sourceforge.net/p/tikiwiki/code/64698  
Jonny Bradley (jonnybradley): php doc/devtools/svnbranchupdate.php branches/18.x  
Jonny Bradley (jonnybradley): svn commit -F svn-commit.tmp  
Jonny Bradley (jonnybradley): https://dev.tiki.org/SVN+Tips#Merging_branch_to_trunk_while_releasing  
Guest: Asa: Verifying...This script is likely not to be appropriate for this working copy. This script can be used in trunk  
Jean-Marc Libs (Jyhem): Asa: Fosdem is awesome. I used to go there before I even knew about Tiki  
Guest: Asa: https://svn.code.sf.net/p/tikiwiki/code/trunksvn+ssh://lfagundes@svn.code.sf.net/p/tikiwiki/code/trunk  
Jean-Marc Libs (Jyhem): amette has an icon problem, not a microphone problem :)  
amette: yeah, seems so :)  
amette: It showed me "You got disconnected, trying to reconnect" earlier...  
amette: ... it apparently managed... except for the icon..  
amette: brb  
amette: muting myself via the icon wasn't possible either - icon problem indeed  
Guest: Asa: The provided source cannot be used to update this working copy. Only experimental branches can be used.  
Jonny Bradley (jonnybradley): php doc/devtools/svnbranchupdate.php branches/18.x  
lucia d' being (luci): Bernard's watches are always confused it seems :)  
Guest: Asa: if (! is_experimental($source)) {error("The provided source cannot be used to update this working copy. Only experimental branches can be used.");}  
Jonny Bradley (jonnybradley): php doc/devtools/svnbranchupdate.php branches/18.x  
Guest: Asa: php doc/devtools/svnbranchupdate.php branches/18.x  
Bernard Sfez / Tiki Specialist (Bsfez): Hello all  
Jonny Bradley (jonnybradley): https://www.airbnb.co.uk/rooms/7819676?location=Brussels%2C%20Belgium&children=0&infants=0&...
Guest: Asa: noise from someone

Guest: Asa: jean marc

Guest: Asa: I think the merge didn't work

Jonny Bradley (jonnybradley):
https://www.airbnb.co.uk/rooms/1744396?location=Brussels%2C%20Belgium&children=0&infants=0&adults=10&guests=10&check_in=2018-02-02&check_out=2018-02-08&tier_override=0&s=RNpjsCT2

Guest: Asa: ah, ok, the script doesn't commit

Guest: Asa: I just commited after verification

Guest: Asa: failed, wait

Bernard Sfez / Tiki Specialist (Bsfez): sorry, back in 5mn

Guest: Asa: now it worked

Guest: Asa: https://sourceforge.net/p/tikiwiki/code/64702

Guest: Asa: Just in time for you to get your kid :) -

Gary Cunningham-Lee (chibaguy): I'll be back shortly.

Gary Cunningham-Lee (chibaguy): back

Guest: Asa: Changelog is now generated by a script (doc/devtools/release.php)

Bernard Sfez / Tiki Specialist (Bsfez): firefox, flash and bbb are pretty capricious... :

amette: Bernard: yes, latest FF won't work at all - no flash any more... use Chromium for now.

Bernard Sfez / Tiki Specialist (Bsfez): same here Chrome

Bernard Sfez / Tiki Specialist (Bsfez): (now)

Bernard Sfez / Tiki Specialist (Bsfez): Amette: I meant I switched to Chrome now and it work.

amette: *thumbsup*

Guest: Asa: This was more a collective button pressing ritual

amette: *g*

luciahs d' being (lucii): branching != release ;)

Bernard Sfez / Tiki Specialist (Bsfez): gna gna gna gna

Guest: Asa: full tiki log has 178k lines :-)

Gary Cunningham-Lee (chibaguy): :)

Guest: Asa: ok, I'll leave so, and create the Tiki18 page with changelog later. Have little time to have lunch.

Guest: Asa: bye!

Bernard Sfez / Tiki Specialist (Bsfez): == Thu Nov 23 16:20:53 CET 2017 TIM action:
