Where

- https://live.tiki.org

What

See Roundtable Meetings for a detailed description.

Topics

First hour, quick news

1. Release Announcements
2. Spread the News on social media networks
3. ...

*put your topic (max. 5-10 minutes) into the list above*
Second hour, longer topics

1. TikiFest Virtual 2020 Conclusions / Summarize the outcome?
2. Effective date for ToS and PP?
3. ...

*put your topic (max. 15 minutes) into the list above*

Recording

- [https://recordings.rna1.blindsidenetworks.com/citadelrock/d559965849921585c1849af03b7a51638700d979-1593093322719/presentation/](https://recordings.rna1.blindsidenetworks.com/citadelrock/d559965849921585c1849af03b7a51638700d979-1593093322719/presentation/)

Follow-Up

- luci wrote the release announcement article
- question about the effective date sent to TAG
- ...

*put your follow up action(s) when you're done into the list above*

Chat log

Gary Cunningham-Lee (chibaguy): Velocity is app name for Windows
Jean-Marc Libs (Jyhem): Zeal is for Linux. I kind of like it and use it for smarty & jQuery & such. but it does not provide Tiki ✗
lucia sh d' being ?σ (luci): It is awaiting the merge here: [https://github.com/Kapeli/Dash-User-Contributions/pull/2851](https://github.com/Kapeli/Dash-User-Contributions/pull/2851)
Roberto Kirschbaum (robertokir): J-M I installed the Tiki docset for Linux but it didn't work fine. Maybe you could try too?
Roberto Kirschbaum (robertokir): (for Zeal)
lucia sh d' being ?σ (luci): The Velocity worked fine for me
Jean-Marc Libs (Jyhem): Tiki is not in the list of "Available" docsets. How else can one add a docset?
Roberto Kirschbaum (robertokir): I found the docset here [https://zealusercontributions.now.sh/](https://zealusercontributions.now.sh/)
G. (guillaume.leclerc): @roberto yeah, user contributes ones
G. (guillaume.leclerc): @JM which software you use?
G. (guillaume.leclerc): in shows up in Dash, user contributed packages
lucia sh d' being ?σ (luci): [https://info.tiki.org/article469-Message-from-Tiki-org-about-the-Coronavirus-Pandemic#threadId=73757](https://info.tiki.org/article469-Message-from-Tiki-org-about-the-Coronavirus-Pandemic#threadId=73757)
G. (guillaume.leclerc): oh ok, missed the beginning of the discussion
G. (guillaume.leclerc): Roberto has the correct link
Jean-Marc Libs (Jyhem): Thanks Roberto! Found the link for the feed: [https://zealusercontributions.now.sh/api/docsets/Tiki](https://zealusercontributions.now.sh/api/docsets/Tiki)
Roberto Kirschbaum (robertokir): Yes it would be good to see if other people could make it work in Zeal
Roberto Kirschbaum (robertokir): @JM That link is great, using it you get the docset in Zeal without
having to install it manually. Still navigating through the contents is not good, I'd like to know of your experience if you install it.

Jean-Marc Libs (Jyhem): I just installed it. no feedback yet.

luciash d' being ?σ (luci): I like Widgets or Tikidgets as well

luciash d' being ?σ (luci): And Presets

Jean-Marc Libs (Jyhem): I like Tikidgets but widgets are good as well. I'm happy with either.

Roberto Kirschbaum (robertokir): I prefer widgets, more universal

luciash d' being ?σ (luci): I am just going to merge this MR: https://gitlab.com/tikiwiki/tiki/-/merge_requests/454

luciash d' being ?σ (luci): Looks good?

Roberto Kirschbaum (robertokir): I didn't have a chance to test it

Roberto Kirschbaum (robertokir): +1 for presets

luciash d' being ?σ (luci): Looks good to me from the before/after screencasts

Roberto Kirschbaum (robertokir): Yes looks good. But shouldn't it go to Master first?

luciash d' being ?σ (luci): I can cherry pick that

Roberto Kirschbaum (robertokir): nice

Roberto Kirschbaum (robertokir): MASTER noun 1. HISTORICAL a man who has people working for him, especially servants or slaves. "he acceded to his master's wishes" Sinónimos: lord overlord lord and master ruler sovereign monarch liege liege lord suzerain overseer superintendent director manager controller leader governor commander padrone captain head headman boss principal employer

foreman chief top dog honcho head honcho Big Chief Big Daddy gaffer guv'nor kahuna sachem

Antónimos: servant underling 2. a man in charge of an organization or group. adjective 1. having or showing very great skill or proficiency. "you don't have to be a master chef in order to cook meat properly" 2. main; principal. "the apartment's master bathroom has a free-standing oval bathtub"

luciash d' being ?σ (luci): I hope next on the "offended" list is not male/female plugs...

Roberto Kirschbaum (robertokir): Servo = Slave

luciash d' being ?σ (luci): Is it only me or is Jonny's audio breaking a bit?

G. (guillaume.leclerc): here too

Jean-Marc Libs (Jyhem): where do you find servo = slave?

Jean-Marc Libs (Jyhem): that's new to me

luciash d' being ?σ (luci): new to me too, actually i thought servo is something else

Roberto Kirschbaum (robertokir): yeah a long shot, servo is related to serfdom which is not exactly the same as slave

luciash d' being ?σ (luci): madchen is it?

Jean-Marc Libs (Jyhem): mädelchen

luciash d' being ?σ (luci): alt?

Jean-Marc Libs (Jyhem): the tremas are important

luciash d' being ?σ (luci): YoU got Trunk degree, Roberto

Roberto Kirschbaum (robertokir): if it was in botanics

luciash d' being ?σ (luci): What is that noise? There was a metro going around?

Roberto Kirschbaum (robertokir): I think my street is now a food delivery route (with motorcycles)
