3 hamburger on mobile ????
lu
yes we can disable it

it is obsolete and not maintained (i mean enhanced) anymore

In general, I want to propose to mark some pages as outdated. Is that possible?

it is kind of nostalgia like browsing geocities

@Aris you can put a remark on top of the page like ^This page content is obsolete^ or maybe we can create a category for that and you can just categorize the page using the left hand column module?

Is there anyone voting to "no" for disabling the directory feature on Tiki?

@lucy the problem is also as Bernard said- dead pages searchable and shows on search engines
gary
Gary Cunningham-Lee (chibaguy)
Pages in "Archived" could be registered-user-only visible.
lu
luciash d' being (luci)
we can put NOINDEX,NOFOLLOW on them maybe? using the metattag plugin in custom module assigned by the category
gary
Gary Cunningham-Lee (chibaguy)

.... dark is really dark... Make me feel uncomfortable. Can't we have a less dark dark?
I just wanted to ask ;-)

is it editable?

Look very nice!

no we cannot have less dark

use the light option instead

if you prefer

... I want a dark-grey option ;-)  

Why don't we get full width with the left collapsing?

or use your own theme ;)

it is customizable css?
vote for static look, only dark and lite
