@Aris you can put a remark on top of the page like ^This page content is obsolete^ or maybe we can create a category for that and you can just categorize the page using the left hand column module?

@lucy the problem is also as Bernard said- dead pages searchable and shows on search engines
 ge
Gary Cunningham-Lee (chibaguy)
Pages in "Archived" could be registered-user-only visible.

we can put NOINDEX,NOFOLLOW on them maybe? using the metattag plugin in custom module assigned by the category

(Af there's value in looking at archived pages, for users.)

A lot of work... I am thinking of automated ways..

It will be automated but you need to do the "lot of work" first ;)

I love this "Supreme being" thing []

I love the communists part... :)

Group them together!

.... dark is really dark... Make me feel uncomfortable. Can't we have a less dark dark ?
I just wanted to ask ;-)  

is it editable ?  

Look very nice!  

no we cannot have less dark  

use the light option instead  

if you prefer  

... I want a dark-grey option ;-)  

Why don't we get full width with the left collapsing ?  

or use your own theme ;)  

it is customizable css ?
vote for static look, only dark and lite

JM

Good for me too!

my demo is a bit behind ;) I was just afraid to git pull these last changes made by jonny in the last day or two to update it and see it broken again lol

for the feature name?

« Admin Backend interface » is good enough :-(

It's not for users anyway :-(

Jonny bye! ;-)
