luciash d' being (luci) 00:46:04
yes we can disable it
lu
luciash d' being (luci) 00:46:42
it is obsolete and not maintained (i mean enhanced) anymore
lu

@Aris you can put a remark on top of the page like ^This page content is obsolete^ or maybe we can create a category for that and you can just categorize the page using the left hand column module?
be
Bernard Sfez / Tiki Specialist (Bsfez) 00:51:39
Is there anyone voting to "no" for disabling the directory feature on Tiki ?

Aris you can use the Categorize module on the left and assign one of the Archives category

gary Cunningham-Lee (chibaguy)
00:56:11
At themes.t.o. there are 146 pages in a "Retired" category.

gary Cunningham-Lee (chibaguy)
00:56:19
they're admin-only access.

aris Bernotas (aris002)
00:57:13
@lucy the problem is also as Bernard said- dead pages searchable and shows on search engines

gary Cunningham-Lee (chibaguy)
Pages in "Archived" could be registered-user-only visible.

we can put NOINDEX,NOFOLLOW on them maybe? using the metattag plugin in custom module assigned by the category

(If there's value in looking at archived pages, for users.)

A lot of work... I am thinking of automated ways..

It will be automated but you need to do the "lot of work" first ;)

with category and module

I love this "Supreme being" thing 

I love the communists part... :)

Group them together !

.... dark is really dark... Make me feel uncomfortable. Can't we have a less dark dark ?
I just wanted to ask ;-)

is it editable?

Look very nice!

no we cannot have less dark

use the light option instead

if you prefer

... I want a dark-grey option ;-) 

Why don't we get full width with the left collapsing?

or use your own theme ;)

it is customizable css?
vote for static look, only dark and lite
