TikiFest Virtual 2021

Main Tiki yearly online meetup event where users, Community members and coders unite together to discuss the future of Tiki and participate in coding sessions just before releasing Tiki 23.0.

Learn what's new, what technologies are going to be added or removed, share your questions and experiences, and meet with the people behind the wiki based Tiki — the Website and Knowledge base generator that empowers users by connecting Data and Wiki.

Due to health and travel regulations during the Covid-19 pandemic, we decided that the 2021 TikiFest will be again a virtual one. This TikiFest will be split into two events:

- Discussions about the future of Tiki, related topics, and coding sessions (described below) — June 2 to 5, 2021
- Demos and workshops — TikiFest Virtual 2021 Summer Workshops (indefinitely postponed)

Coordinating with users in several timezones we prepared a planning of events accessible to all. A tracker and the tracker calendar plugin are being used for the planning and display of the program.

The last session of the June event will, we hope, be a kind of conclusion (completing committing, documentation, and eventually planning other steps) . . . and the virtual farewell toast and beer meeting.
