TikiFest was fun!

What is a TikiFest?

We don't know yet ;-) Let's get together as many Tiki devs in one place for as long as possible and see what happens...

Likely we'll transform my place in a Tiki hut for a week! Bring your laptop & sleeping bag. If you don't have a laptop, I have a few extra computers available.

It could look like something like this:

- Sort what hardware is broken or not
- Code
- Pizza
- Discussing World Domination
- Code
- Arguing about the code
- Beer
- Sleep on one of Marc's couches
- Cold Pizza for breakfast
- Code
- goto 10 ;-)

Come for a day or come for the week!!

We can setup VOIP phone line and a webcam for people who have an excuse not to be there (like living in Argentina) ;-)

Initial post about this crazy idea:
http://sourceforge.net/mailarchive/message.php?msg_id=6568031
Entry in LinuxQuebec's calendar:

**PhpConf**

Oh yeah, don't forget to register to the phpconference! My place is walking distance from the hotel so Tikers can stay at my place.

CMS Debate: Which CMS for your organisation?
(TikiWiki, Spip, Xoops, Typo3, Zope)

Info on the conference:

**Who is/will be there?**

Please confirm your presence below

- Robin Y. Millette still have to register...
- elecnix 20-21 and maybe more
- Chealer9 (ville de Québec) squatted the area during the weekend 20-21
- marco 20-21
- Sylvain Carle, not sure when yet, but I will drop by to challenge you guys a bit...
- who else?

... and who can't!...

- weichelt Germany is just to far away - Have some fun and send some moving(?) pictures!
- Damian cant, but will be via the TikiGod cam
- ohertel do not get holidays for some weeks now, pretty busy...
