

Connecting To IRC

We are moving here: <https://gitter.im/tiki-org/community>

Quick web access:

 <http://webchat.freenode.net/?channels=tikiwiki>

(If it doesn't work for you, it could mean the gateway is temporarily getting too much traffic. Also, currently registration with FreeNode is required to log in to the chat because of a problem with spammers.)

Please be patient and stay a while, answers don't come instantly

The Tiki Developer Community communicates by text chat 24 hours per day, 7 days in week on IRC. This is one of the ways to [get help](#) (but generally not the first). If you are not familiar with [IRC channel etiquette](#) we suggest spending a few minutes to acquaint yourself before your first session.
