

Dogfood Team

The [Dogfood Team](#) ensures that all *.tiki.org sites are configured and working well, according to the software engineering principle of "[Eating your own dog food](#)". Team leaders: [luciash d' being](#) and [Roberto Kirschbaum](#)

- [Release responsibilities](#)
- [Tasks \(do an cross out\)](#)
 - [Make it easy to register](#)
 - [Make sure people can get in touch with the right people](#)
- [Projects](#)
 - [Project Enhance User Tracker](#)
- [Ongoing](#)
 - [Maintain Tiki instances](#)
 - [Maintain Other tools](#)

Release responsibilities

1. Determine an upgrade calendar for all relevant [domains](#), from less risky to most risky. Order is Branding, Themes, Documentation, Community (tiki.org), Development, Profiles. It's the ultimate [DogFood](#) and the goal is that all major sites are upgraded before it's released.
2. In collaboration with the [Infrastructure Team](#), proceed to these upgrades and ensure everything is still working fine.
3. After the upgrade, implement new features on *.tiki.org to help test and make the community more open efficient and welcoming
 - In the weeks and months before an upgrade, this can be tested daily thanks to the [Pre-Dogfood Server](#)
 - Update [Dogfood](#) with any new features used. This serves as a case study.
4. Review [Tiki Welcome](#), as all new registrants are sent to it after validating their email link.

Tasks (do an cross out)

Make it easy to register

- We want a bigger button somewhere
- UI issue: Provoke error "Password must be different from the user login." and you loose capcha , some fields like Country, and you get "You do not have permission to insert an item"
- [Tiki Welcome](#) merge with [Custom registration message](#) (templates/mail/user_validation_mail.tpl)

Make sure people can get in touch with the right people

Projects

- Cleanup and harmonization of the *.tiki.org footer
- Harmonize theme usage and top navigation

- Re-model the registration process to be more [Social Networking](#)
- Along with [i18n Team](#), fix the i18n perspective on tiki.org
- [Stickiness Project](#)
 - After registration: Ideally, another message a week or two later. Thanks for registering... all good?
- [tiki.org Teams and Social Networking Dogfood](#)
- Convert more (all?) sites to [Federated Search](#)

Project Enhance User Tracker

- Implement Serious [Dogfooding](#) of a [user tracker](#) to gather information about our community and update the nice [Community Worldmap](#)
 - Retire [the previous attempt](#) (migrate data?)
- It would be nice to be able to build the community and determine *why* new users register at t.o. Maybe we can include a user tracker (post registration, perhaps as part of the Welcome page to collect/analyze:
 - Why are they registering for a Tiki account?
 - Prompted after installation?
 - Want to have access to forums?
 - Want to become a committer?
 - etc.
 - What do they expect *from* the community?
 - Support?
 - Involvement in active community?
 - The chance to "shine"?
 - What can they give *to* the community?
 - Coding -> Development

There are lots of ways to contribute *other than* coding:

- Layout/design -> Themes
- Marketing/PR
- Legal
- Doc/support

Ongoing

Maintain Tiki instances

- Help with [Accounts](#) along with [Community Building Team](#)
- Determine [where](#) content should go.
- Maintain all *.tiki.org sites to an optimal configuration -> [Preferences of *.tiki.org](#)
 - Including [Pre-Dogfood Servers](#)
- Oversee any shared content (ex.: footer)
- Determine which site should be at each version (we want active sites running in all supported versions)
- Maintain [Domains](#) list in collaboration with the [Infrastructure Team](#)
- [Track issues categorized at Dogfood on dev.tiki.org](#)

- tv.tiki.org in conjunction with [Video Authoring Team](#)
- demo.tiki.org

Maintain Other tools

- irc.tiki.org: Freenode #tikiwiki (update topic, make sure web interface is working, interact with freenode, make use of IRC bots, make sure irc.tiki.org has logs and is functional, etc.)
 - http://www.donarmstrong.com/posts/switching_to_kgb/
- live.tiki.org and interactions with BigBlueButton.org community
 - Make sure site is up and that useless recordings are deleted from the list (just install a Tiki10 to connect to BBB to do this)
- Management of [Mailing Lists](#) (ex.: bounces, errors) and [adding/maintaining forum to mailing lists integration](#)
- Clipperz accounts
- Mail server
 - To manage accounts, contact Marc Laporte in private
 - For technical issues about the software: Frank Guthausen
