

Eilorux

Curtis Hohen. Computer abuser since Commodore PET 3000 series and DEC Writer 10 back in High School in St. Clair Shores, Michigan. I'm the building supervisor in the world of computers and cannot really point out my strong points other than I'm good at everything, not great. Perhaps when I have time to invite a time-doubling machine to make a 48 hour day, then I'll have time to go to college and be someone... until then, I work.

Work interests are: Video Production, Audio Production, Web Development, Database Development, and formatting floppy diskettes for the sheeple I work for.

Personal interests: My kids, watching films, catching new music off the net, family, friends.

That's about it for now.
