[Ordering galleries in the gallery list](#)

[Uploading files > 2 MB](#)

[Batch upload should not upload the ZIP file](#)

Being able to move a file from one gallery to another (like for images)

## Competition and standards

---

List of other products with similar/interesting/related features.

Here I would like to see some "editorial" content. How do our features compare to others?

[Avire](#) provides some interesting related capability with regards to the ability to organize a gallery of images (referring to the "Video Gallery" request with suggestion for an organized row/column collection of thumbnails of quicktime/avi files). Avire is an image gallery extension to Tiki based on the concept of Exhibitions. Unsure of licensing.

## Discussion/participation
