## Short Tiki intro used for Book Fair

Tiki Wiki CMS Groupware is an open source, full-featured, web-based, multilingual (40+ languages), tightly integrated, all-in-one Wiki+Content Management System+Groupware. Tiki can be used to create all kinds of Web applications, sites, portals, knowledge base, intranets, and extranets. It is actively developed by a very large international community.

Tiki is the open source web application with the most built-in features. Highly configurable and modular, all features are optional and administered via a web-based interface. Tiki is the software framework used to build Poiesipedia.
