

Hidable Navigation Bar instructions

Instructions

This profile makes minor changes to your site layout and hides the top module zone when you scroll down the page.

Changes made by this profile

Site layout (in **Control Panels > Look and Feel > General layout > Site layout**) will be set to `Classic Bootstrap (fixed top navbar)`.

Preference Site logo (feature_sitelogo) will be disabled so that logos and site title are not shown twice.

After scrolling down a bit, the fixed top bar will disappear and the topbar zone (if any) will become sticky. This is made through the addition of a module with some JavaScript.

This profile is best demonstrated after applying the `Collaborative Community` profile which includes site title and topbar module with menus or you can see it applied as an example on the official documentation site too: <https://doc.tiki.org>

Upgrading

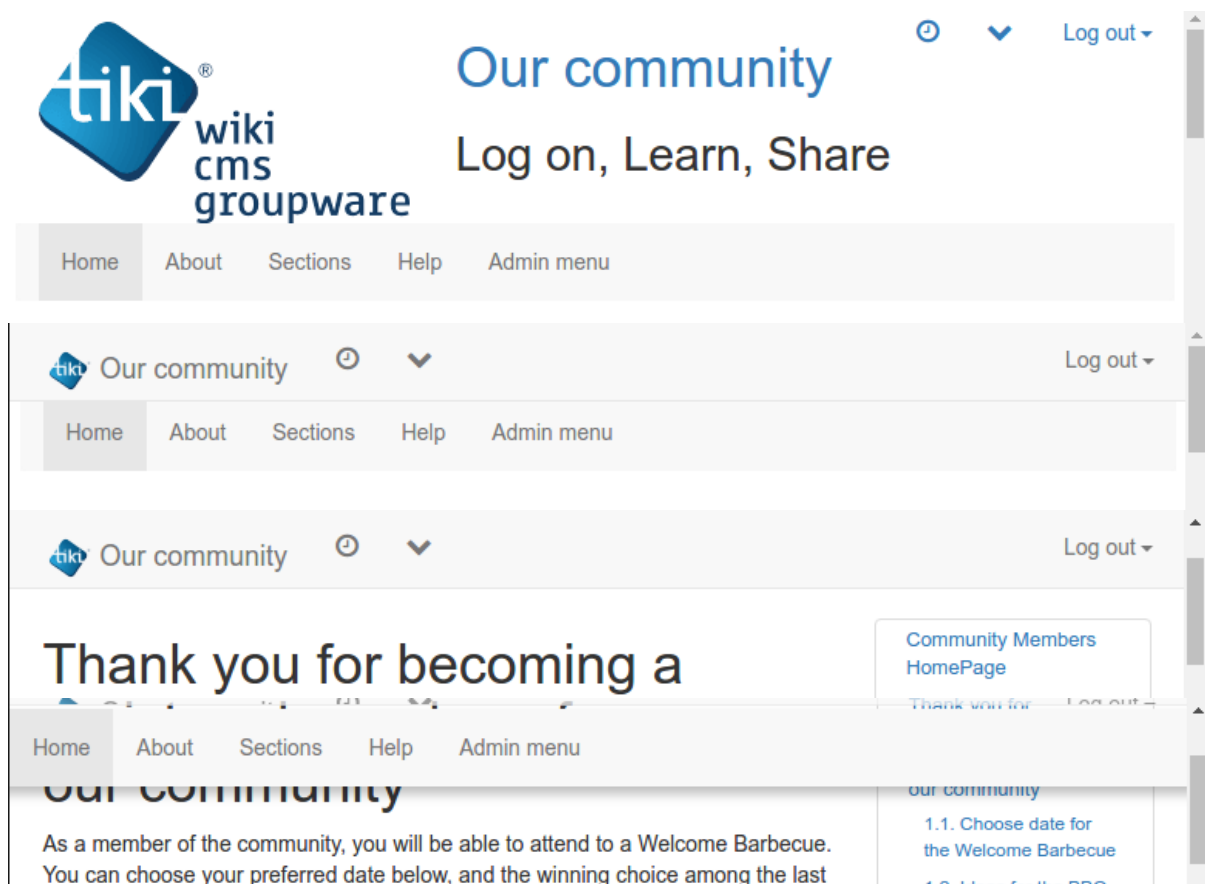

When there is a new version you can re-apply the profile but the older version's module must be unassigned manually to avoid having two clashing modules applied at the same time.

Uninstall

There is no uninstall feature for profiles. If you want to "uninstall" you can simply unassign the module and remove this instructions page. Also remember to switch back the site layout to whatever it was before (you can see the latest changes recorded in the Tiki logs).

Screenshots

Changes in header section:

Full view of page changes:

The image shows a screenshot of the Tiki Wiki CMS Groupware interface. At the top, the 'tiki' logo is on the left, and 'Our community' is on the right. Below the logo is 'wiki cms groupware'. Under 'Our community' is the text 'Log on, Learn, Share'. A navigation bar contains 'Home', 'About', 'Sections', 'Help', and 'Admin menu'. A 'Log out' link is in the top right. The main heading is 'Community Members HomePage'. The main text says 'Thank you for becoming a registered member of our community'. It then explains that as a member, one can attend a Welcome Barbecue, choose a date, and propose activities. A sidebar on the right lists 'Community Members HomePage', a thank you message, and three numbered items: '1.1. Choose date for the Welcome Barbecue', '1.2. Ideas for the BBQ', and '1.3. Add other tentative events in the common Agenda'. Below the main text, the heading '1.1. Choose date for the Welcome Barbecue' is visible. A red rectangle highlights a vertical scrollbar on the right side of the page, indicating a scroll action. The page content is partially obscured by a black border, suggesting it's a screenshot of a browser window.

Community Members HomePage

Thank you for becoming a registered member of our community

As a member of the community, you will be able to attend to a Welcome Barbecue. You can choose your preferred date below, and the winning choice among the last new members will be the date of the event.

In addition, you can propose activities for the Community along the year, lasting more than one day if needed (add a date, and drag & extend events in the full calendar shown below). See the Common Agenda below. You can also display the activities as a resource view.
