

InfoTikiWikiOrgDev

Intro

This page is dedicated to the desing of the homepage of Tiki. The pages on info.tiki.org are those first impression pages for folks arriving to Tiki. In order to keep them organized they can not be edited directly on the info.tikiwiki page, they are discussed and desinged here first, then go public

Proposed info.tiki.org layout - add your ideas here!

- Unify text with promo sheet & use famfamfam icons?
- The opening page of Tiki should give a quick and easy overview on what Tiki is about with as few clicks as possible

gezza: I think we should avoid using links for the *Features, Join!*, etc subpages and try to make a tabbed layout where you can navigate without page reload. Currently there is no such feature in Tiki but maybe it should go on the roadmap to have plugin for this. It could be called "tab plugin" and should be similar to the existing "versions" plugin (maybe this one could be enhanced to use ajax and a few more parameters).

previous welcome text

[+]

Current issues:

- what to include in the article listing

Tiki News listing syntax

```
{ARTICLES(max=>5,topicId=>!5)}{ARTICLES}
```

- tab switching reloads the page
- can not center H1, the syntax does not work

```
::!TEXT::
```

```
{CENTER()}!TEXT{CENTER}
```

Example:

!TEXT

!TEXT

- Need to use a DIV:

!{DIV(align="center")}TEXT{DIV}

TEXT

- ~~anonymus in users can not navigate, when trying to switch tab the page just reloads but the tab is not switched. When logged in it works fine. This is caused by **cache!** If it need a refresh from cache, navigation will not work. After you refresh (with the green arrow icon on the top), navigation will work for anonymus~~
- the first H1 of a tab is not processed correctly. workaround is to start a raw, put one space than press enter and put the H1 in the 2nd row, than it is fine in preview mode but not fine after save
- having a wikilink in a H1 disrespects H1 style

Tabbed design using VERSIONS plugin

Why use Tiki? Check our Top 10 Reasons!

1. Tiki is free, opensource software, licensed as LGPL. The project's philosophy is detailed in our social contract
2. Tiki has all the features you want wiki, news articles, blogs, polls, forums, trackers (database), image and file galleries, and much more in a tightly bundled system.
3. Tiki has fine-grained user and group permissions. This allows you to easily give users access to exactly what they need.
4. Because Tiki uses a powerful templating engine (Smarty ([external link](#))) you can easily customize a Tiki site to make it your own. Tiki's Site Identity and Theme Control features make it easy.
5. Tiki use of database abstraction (ADOdb ([external link](#))) enables compatibility with many environments, including MySQL.
6. The Tiki project partners with Open Source Software actors ([external link](#)). We leverage existing technologies and partner with field leaders whenever possible.
7. As a leading CMS application, Tiki has been nominated for, and received, several awards by the software community.
8. Tiki's active community includes nearly 300 developers and contributors to the code base and more than 12,000 registered users.
9. There is continuing, active development. On average, developers update the code (with new features and fixes) every two hours. Please see: [Roadmap](#).
10. The official Tiki documentation, maintained by the Tiki community) contains more than 1,500 wiki pages and includes a fully illustrated PDF.

Tabbed design using TABS plugin

Welcome to Tiki!

Tiki is a web-based, multilingual, wiki and content management system (CMS) tightly integrated with a comprehensive set of groupware features. It is a free and open source software created by a large, international development team.

Tiki includes hundreds of well integrated features. In most situations, Tiki “does it all”, you do not need to find other software to fill in a missing piece.

Because of this, Tiki helps you to easily create all types of collaborative applications:

Use one and only one of the following parameters: fileId, randomGalleryId, fgallId, attId, id, or src.
websites

portals

knowledge bases

intranets

extranets

Tiki’s web-based, graphical interface makes it easy to configure the features you need. Tiki’s enormous set of features allows you to have the confidence that it will adapt well to all your requirements, now and in the future.

Get Tiki!

Current Stable Release: 3.1

{SPLIT}

Whatever you are looking for, chances are Tiki has it. Your search for the most feature-complete CMS is over.

Read the [Top 10 Reasons to use Tiki and get started with Tiki today!](#)

TikiWiki is Free and Open Source software (LGPL 2.1 [\(external link\)](#)). You do not have to pay anything to anyone to use TikiWiki. However, you may choose to get hired help for setup, hosting, training, etc.

These consultants are active contributors to the TikiWiki community. By hiring them, you are permitting them to spend more time to contribute to TikiWiki.

When you do hire people (they don't have to be on this list!), make sure to insist the fixes and enhancements are re-contributed back. This is good for you so you don't end up with a forked-version which will be difficult/expensive to maintain. It's good for the whole community as it accelerates Tiki's progress.

Tiki Roundtable Meeting 2021 07

  (Subscribe by email )

Author: Bernard Sfez / Tiki Specialist - Published 14 Jul 2021 14:51 GMT-0000

 On the 15th of July 2021 at 14:00UTC we will have our monthly community meeting.

Below are some of the topics of our two-hour meeting that you can join in at : <https://live.tiki.org>.

Short discussions

- New way to populate TRM topics
- Status of [Tiki 23](#) release process
- Status of [TikiFest Virtual 2021 Summer Workshops](#)
- "Site closed" message translation dilemma
- Improve setup.sh php version detection
- Menu option for Wizards integration in our new admin dashboard
- Gitlab questions and answers

Longer discussions

- How to develop the new Admin Dashboard
- Status of [Tiki Community 2021 Navigation Revamp](#) (15 to 20 minutes if we have time to present the work done)

More details at : <https://tiki.org/Roundtable-Meeting-2021-07>.

Coming Soon: TikiFest Virtual 2021

Author: Gary Cunningham-Lee - Published 22 May 2021 17:06 GMT-0000

 TikiFest Virtual 2021 will be held from June 2 to June 5, and everyone is invited to get together online at tiki.org/live for presentations and discussions.

The open source Tiki Wiki CMS Groupware provides tools for remote collaboration integrated with a wiki, calendar, and database features, among others, so we will be using these in-house tools for the virtual Tikifest.

The Covid-19 pandemic is still impacting travel and other activities around the world. Unfortunately, then, it isn't possible yet to hold a normal in-person TikiFest, to meet and work together in one place for a few days. But with Tiki providing the tools for remote collaboration, we're doing the next-best thing: we're having another virtual TikiFest, following [the first one held a year ago](#).

During the TikiFest, some time slots might have parallel tracks for developers and users (advanced or new) but in any case there will be something for everyone, no matter whether you are a Tiki veteran or are new to Tiki and want to discover how we do things the Tiki way.

Everyone is invited to take part in the Tiki community life and the Tiki project.

Tiki 15 reaches end of service life - what are your options?

Author: Marc Laporte - Published 13 May 2021 17:34 GMT-0000

 Tiki 15 LTS, first released in April 2016, has reached the end of its service life, so is no longer being maintained by the Tiki Community or receiving security fixes or feature updates. Tiki 15 users are urged to upgrade their site to the latest Tiki Long Term Support version. Organizations that for some reason choose to continue using Tiki 15 can seek professional enterprise support from a Tiki [consultant](#).

April 2021 Tiki Roundtable Meeting

Author: Bernard Sfez / Tiki Specialist - Published 03 Apr 2021 07:09 GMT-0000

Hello, folks! We have a Tiki Roundtable Meeting coming up!

Please visit: <https://tiki.org/Roundtable-Meeting-2021-04>

Add your preferred date/time.

Add your topic(s).

And join us at: <https://tiki.org/live>.

So far we'll discuss the Tiki22 status and preparations for the Tiki23 release (in June), and continue with the Tikifest preparations (<https://tiki.org/TikiFest-Virtual-2021>).

More topics may still be added.

See you!
