

PluginMiniQuiz

Of course this won't work as yet with tw.o as it's running 1.8 and HEAD is where you'll find all of the magic 🤖

MiniQuizExample

Creating quizzes and tests are easy now... all you need to do is use this tracker as your example...

This will get you started though. Please see

http://tikiwiki.org/tiki-view_tracker.php?trackerId=5 for an idea of what the beta trackers look like.

Trackers in HEAD cvs are vastly more powerful and polished.

```
//You may experience problems... make sure the name of your fields is accurate
// Includes a miniquiz form
// fields to use in trackers to prepare miniquiz
// Question    the question
// Answer      correct answer
// Option a    false answer
// Option b    false answer
// Option c    false answer
// Option d    false answer
// Valid       indicates that the tracker item is to be used as a quiz item
