Roundtable Meeting 2015 03 26

Table of contents

Facilitator: luciash d' being

When

Thursday, March 26, 2015 at 19:00:00 UTC time (click for time zone in your city)

Please note: In March "*Daylight Saving Time*" starts at 8th in North America whilst at 29th in Europe! **Thus in March we will stay at 19:00 UTC !!**

(NEXT month (April) we switch to 20:00UTC.)

What

See Webinars for a detailed description.

Where

http://live.tiki.org

Topics

1st hour quick news

- Tiki 14.0 beta released - brief discussion on how it looks, has anyone tested it, and when should we release 14.0?
  (also we need to release 13.2 and 12.4)
  Conclusion:
  - Tentative schecule: in a week, themes.t.o. A week later or so, maybe doc.t.o and dev.t.o., so that we have time to detect more bugs and issues and solve them, before the other sites (or all *.t.o sites) are upgraded, etc.
  - Gather information about issues and solutions here: http://dev.tiki.org/Tiki14Upgrade (page linked from http://dev.tiki.org/Tiki14#Upgrade)
- What to call these monthly meetings (webinars is wrong, as discussed previously, let's pick something)
  Conclusion:
  - Tiki Roundtable Meetings
- And how about varying the times so people in other timezones might be able to attend
  Conclusion:
  - ?
- Should we dogfood more the Social networking and Activity Stream features on tiki.org? (luci volunteers to set it up)
  Conclusion:
  - yes, specially if there is a volunteer with time and knowledge about how to do it.
- Brief discussion about the JavaScript vs noscript threads recently on the dev list?
  Conclusion:
  - ?

More conclusions on the Tiki Roundtable Meeting 2015 03 26 Followup.

Second hour, longer topics

- Plugin list and custom_search workshop with Jonny Bradley
- ~~Fautore - Purpose, goals and integration opportunities (~30 minutes) with~~ Steve postponed to the next month

Recording

Follow-Up

Tiki Roundtable Meeting 2015 03 26 Followup
We agreed on some stuff and ToDos:

- people should test 14.0 beta
- fix logo appearance for 14.x sites (luci)
- lets aim to release Tiki 14 in two weeks
- lets update themes.tiki.org first in one week to safely test the new look for tiki.org sites implementation (fivealive-lite + the hiding of top bars)
- agreed on Tiki Roundtable Meeting name for the monthly meetings
- make a wiki page to convene about the best times and days for monthly meeting (bsfez or Torsten)
- jonny will upstream fix to allow Facebook registrations create corresponding user tracker items
- luci will enable Facebook app and the FB registration/login using the Social networking feature to Dogfood
- luci will create user profile page with Activity Stream of following friends activity to Dogfood the feature too
- regarding the JS vs no-script functionality ~~someone should set up a dev page on dev.tiki.org about it and~~ people experienced should go to https://dev.tiki.org/No+Javascript and take a lead collecting info there about what should work with no JS and what is OK to keep for admins or JS dependent stuff

Jonny gave a screen-sharing workshop about Plugin list and custom_search. (it starts at 73min36s)
Sadly we did not have enough time for presentation by Steve so it was postponed to the next one.
