Security issues

- [Discovered in Tiki Wiki 16.0.x: PluginListExecute enhancements \(new security change file submitted in #16000 - <https://sourceforge.net/p/tikiwiki/code/60376> with discussion about potential backport to 16.x or recent\) postponed to the roundtable meeting \(see <https://sourceforge.net/p/tikiwiki/mailman/message/35511774/>\)](#)
- Backporting guidelines - what should be allowed to be backported to which branches?
- More help if needed, like a discussion on how should this be integrated into Tiki
- Demonstrate possible "bug or not?" regarding perms on file gallery when there is a need to set perms on the parent gallery. (Nelson)
