What

See TRM for a detailed description.

Where

http://live.tiki.org

Topics

1st hour quick news

- New releases, 16.0 and (hopefully) 15.3 and 12.10
- H5P Comes to Tiki 17 (more info here)
- Who comes to Fosdem? How do we organize the TikiFest afterwards? What do we need? Who is coming?

Second hour, longer topics

- Discussion about some PluginListExecute enhancements (new action filegal_change_filename) committed in trunk: https://sourceforge.net/p/tikiwiki/code/60376 with discussion (about potential backport to 16.x or revert) postponed to the roundtable meeting (see https://sourceforge.net/p/tikiwiki/mailman/message/35511774/)
- Backporting guidelines - what should be allowed to be backported to which branches?

- More on H5P if needed, like a discussion on how should this be integrated into Tiki
- Demonstrate possible "bug or not?" setting perms on file gallery when there is a need to set it on the parent gallery. (Nelson)

Recording
