

SENSORICA

Next meeting: Wednesday 2014-02-05 10:00 – 13:00 (EST) at 5795, avenue De Gaspé, Suite 213B (will be a hangout as well, just ping Tibi, Yasir or Marc)

"SENSORICA: an open, decentralized and self-organizing value network, designing, producing, and distributing sensing and sensemaking solutions."

"An open-value network is a network of open-enterprises that can provide all functions of a corporation in an open-collaboration fashion"

This page is to explore collaboration between the Tiki and SENSORICA communities. [A Google Hangout was held Monday January 27th, 10AM EST.](#)

SENSORICA wants/needs

- Knowledge infrastructure
- Deployable / adaptable to different / evolving needs
 - End-user programming tools / [Visual Programming](#)
- ERP / Accounting

Tiki wants/needs

- To extend beyond the web, into the physical world (sensors, etc.)

Questions for SENSORICA

- The SENSORICA model is different, but how does this affect the desired feature-set?
