Other sites where Tiki has ratings, relative to other projects.

WikiMatrix Statistics
http://www.wikimatrix.org/statistics.php

Alexa has a "Wiki Engines" category which tracks "most visited sites"
Freshmeat has a wiki category, sortable by "Popularity", "Rating", "Vitality" or "Last update"  
http://freshmeat.net/tags/wiki?sort=popularity

SourceForge recently added a wiki category, sortable by "Rank", "Activity", "Latest File" or number of "Downloads"  
http://sourceforge.net/softwaremap/?type_of_search=soft&amp;fq[]=trove:651&amp;sort=num_downloads_week&amp;sortdir=desc&amp;limit=25

As of 2008-10, not all wiki engine have been added/moved to the category yet. Also, the stats are only relevant for wiki engines hosted on Sourceforge.

Social Source Commons has "Wiki tools" "toolbox" sorted by popularity.  
http://socialsourcecommons.org/toolbox/show/1360?sort_by=popularity

Ohloh, where developers can add wiki engines to their "stack".

Mailing lists  
Dev mailing list

Project size  
- 100 000+ messages on the Mailing Lists, since the beginning of the project, which includes CVS-SVN commit messages.  
- 1+ million lines of code
  - More than half is code coming from other projects. See Source Lines of Code  
- 240+ code contributors  
- Thousands of wiki pages  
- Thousands of forum posts
• Currently tiki.org has **20 000+** registered users and **300+** developers at this site.

Stats of Tiki

Would be nice to have an evolution of **Lines of Source Code**. And also, evolution how many we maintain vs re-use. Ex: Zend Framework

svnplot

- svnplot at stats.tiki.org
  - but the results are quite weird so perhaps we should test an upgrade and/or get StatSVN

statsvn

- Some stats for SVN activity :: looking for a volunteer to host stats server and maintain app

2011-10-25: W3Techs was made aware that the algorithm was missing many sites and they responded: “We have included your valuable remarks into our analyzer, which should somewhat improve the TikiWiki recognition.”

BuiltWith

2011-10-26: BuiltWith was made aware that the algorithm was missing many sites and within the next month or so, the stats should be updated.
