

Tiki Local User Groups

Table of contents

What are user groups?

People that use Tiki that have something in common

What does "local" mean?

This is a loose definition. It really depends where you are. It could be a city, a state, country or region. It could also be a language. It means "close to you" somehow 😊

Groups can merge and split as needed.

What do these groups do?

Translations

- Unless your group is in English, there are surely translations to be improved: [Translation](#)

Events

- No [TikiFest](#) near you? Organize one!

Network

- Get to know everyone in the groups you are in. Each user should make a [UserPage](#)

tiki.org

Let's setup tiki.org to support [Organic Groups](#) while using [German Language User Group](#) (Torsten and Olaf) and [Florida TUG](#) (Kim) as examples.

World Map

We also need an WorldMap of all Tiki users.
