It should be as easy to read as possible with very few illustrations.

Topics

1. Welcome back newsletter

Hello, Tikiers,

We are excited to announce that 2024 is going to be an exceptional year for the Tiki Wiki CMS Groupware community, marked by the introduction of a new software version (Tiki 27), enhanced communication channels to improve user support, and the integration of new advanced functionalities into Tiki. As part of these exciting developments, we plan to publish a monthly newsletter for our subscribers — of which you are one — to provide a comprehensive summary of activities within the Tiki software ecosystem, updates from the Tiki community, and pertinent information on related new and Open Source technologies.
