

TikiFest Virtual 2021

Main [Tiki](#) yearly online meetup event where users, [Community members](#) and [coders](#) unite together to discuss the future of Tiki and participate in coding sessions just before releasing [Tiki 23.0](#). Learn what's new, what technologies are going to be added or removed, share your questions and experiences, and meet with the people behind the wiki based [Tiki — the Website and Knowledge base generator](#) that empowers users by connecting Data and Wiki.

Due to health and travel regulations during the Covid-19 pandemic, we decided that the 2021 [TikiFest](#) will be again a virtual one. This TikiFest will be split into two events:

- Discussions about the future of Tiki, related topics, and coding sessions (described below) — June 2 to 5, 2021
- Demos and workshops — [TikiFest Virtual 2021 Summer Workshops](#) (indefinitely postponed)

Coordinating with users in several timezones we prepared a planning of events accessible to all. A [tracker](#) and the [tracker calendar plugin](#) are being used for the planning and display of the program.

The last session of the June event will, we hope, be a kind of conclusion (completing committing, documentation, and eventually planning other steps) . . . and the virtual farewell toast and beer meeting. □
