The action plan so far:

- Complete License issues in Tikiwiki source code
 - Mods Installer from [mose](#)
 - Benchmarks and some improvements from TikiForge project
 - Bug Killing Mini Fest in readiness for a RC4 on the 24th
 - Tracker lessons and fixes [mose](#)
 - Democracy systems building in Tiki
 - <http://nguild.org>
 - Play and Learn some VoIP
 - Fun and Games as usual
-
- Unreal Server available also

And some details:

- I am Wireless enabled!
- 1Mb ADSL to share
- 4 spare PCs on offer for those laptop less (probably get more installed if needed)
- VoIP server, with FWD and IAXtel accounts setup, access to a MeetMe/Conference room

And the overall action plan for the final weekend: [TikiPlan19](#)

To give us an idea of who is coming, please job down your name and the dates your planning to be here. We can comfortably accomodate about 4-5 people for overnights. Any more and you'd have to play Musical Beds or camp outside (6 birth frame tent on standby)

3 webcams in 3 different rooms will be activated! and archived into tiki galleries. No-one has to miss out on the action!

- having a few problems with the webcams, might have to settle for some still shots
