TikiFest is a tradition in the TikiWiki community. A TikiFest is when there is a meeting between at least 2 TikiWiki contributors that don't meet usually. This is an occasion usually for drinking adult beverages getting laptops out and coding wildly in group sessions discussing about wiki technology and culture etc. depending the mood and context. It is a great opportunity for Tiki users and Tiki power users to meet some of the developers and learn more stuff

Partial meeting logs: TikifestMontreal-meeting2009-March-03

http://slideshare.net/tag/tikiwiki

When

5 days: FEB27, FEB28, MAR01, MAR02, MAR03, 2009 (in conjunction with the PHP Québec conference), where Alexander 'amette' Mette is going to present The virtualized server infrastructure of the TikiWiki community.

Where

Offices of CGCOM.
85, Saint-Paul Street West, suite 240
Montréal, Québec H2Y 3V4

What

Groups/Projects

The event will be organized around 4 main groups. You may join one or many groups to help out. Or you

can create a new group or work on your own project.

Marketing, Communication and Documentation

This group is responsible to attract people to our project.

- Release notes / Changelog
- Basic documentation
  - Feature list
  - How to upgrade
  - How to install

Out-of-the-box experience

Once marketing attracted people to our project, this group is responsible for making TikiWiki easy to use for new comers.

- Prepare 2-3 of the bundled profiles with appropriate themes
  - Small Organization Web Presence
  - Create a Support.Mozilla.com profile for re-using for other projects
- Testing the Happy path
  - Register
  - Lost password
- Types
  - Using the installer: InstallerRevamp
  - Fantastico installs

Development, release & packaging

This group is responsible for making sure version 3.0 is released on time and has the best/most features with the fewest possible bugs.

- Daily releases, branching, etc.
- Bug fixing

Sites & infrastructure

This group, also known as the DogFood group is responsible for making sure all the *.tiki.org sites & tool are running smoothly and helping the community be better organized.

Basic work

- amette gives an introduction to the new server infrastructure of doc/dev.tw.o.
- As jyhem and nkoth, who are planned as amette's backups are around, we are going to have a session about the setup
  - maintenance, upgrades, etc.
  - discussion of escalation paths and basic organization of system administration
- Upgrade dev.tiki.org, doc.tiki.org, etc. sites to 3.0
- Migration of themes.tw.o to the setup
- writing documentation of the setup on sysadm.tw.o

Enable the community

- What does the community need to work with the sites?!?
  - THINK PROCESS, NOT FEATURES!!
  - e.g.: ricks99 asked for an FTP-upload, because he used it on the old doc.tw.o site. This is a

feature - but what is the *process* he wants to enable?!?
    - For themes.tw.o in particular, a way is needed to install theme files on the site (not just the bundled themes, but new alternative themes as they are made). FTP has been used for this in the past. (chibaguy)
- Improve community coordination tools like irc.tiki.org

Schedule

The schedule is pretty loose. Come when you want. Add to the schedule below if you want to present/work on particular stuff

Friday Feb 27th	9h->17h	9h Opening & introductions 11h Presentation by Alain Désilets about Tests (50min) 14h Conference call about TikiWiki and terminology
Saturday Feb 28th	9h->17h	11h Conference call about Quicktags/Toolbars (Jonny) + discussion on **Jquery** ~~In the afternoon, we'll join the people at free hackers a few miles away~~ This event is next Saturday. Nuit blanche à Montréal / Montreal All-Nighter
Sunday March 1st	9h->17h	 17h-> Social outing
Monday March 2nd	10h->17h	14h Implementation of project management tools (Use Case) with Eric Kelner - Work Breakdown Structure - Gantt Chart (Scheduling tool) - Earned Value Method 17h-> Social outing
Tuesday March 3rd	9h->17h	13h-16h Dev structure & Community organization and priorities 16h-17h Introduction to TikiWiki (come if you have questions for TikiWiki experts) 17-20h Open Tikifest cocktail Party to the larger open source & open knowledge community in Montreal and participants to the 2009 PHP Quebec Conference. Facebook page about the event

To be scheduled:

- Presentation about TikiSports team management system built from trackers (no custom code) by Sébastien: http://goblitzgo.com/

Release Party

Technical release of Tiki 3.0! and Plan Tiki 4.0: please see RoadMap

Who

This will be, by far, the largest TikiFest ever organized. If you can make it to one per year, this is the one!

Confirmed

Name	From	Accomodation	Note
Marc Laporte	Montreal		

Patrice Weber (Nyloth)	France		confirmed
Jean-Marc Libs (Jyhem)	France	Arranged	confirmed 24/02 afternoon -> 04/03 morning
Louis-Philippe		Montreal	
Nelson (nkoth)	Toronto/Ottawa	will figure something	will arrive on 27.2 afternoon
Amette	Germany	26.02-02.03. at Casa de))LaPorte((and 03.- 07.03. in conference hotel	
Philippe (Thunderbird)	Sherbrooke		
Gary Cunningham-Lee (chibaguy)	Chiba, Japan	Arranged	
Olaf-Michael Stefanov (omstefanov)	Vienna Austria	Hope to meet and work with developers interested in ***developing* Multilingual *features* (esp. adding multilingualism to Surveys** or someone can help get me started doing this. Meanwhile, confirmed at PHP Conf. Hotel.	confirmed: 26.02. - 08.03.
