

TikiFest2011-Montreal-2-BigBlueButton

Live presentation is happening here: <http://tiki.bigbluebutton.org/>

Invitation en français / Invitation in French

This event is part of [TikiFest2011-Montreal-Confoo](#) and is just before the [Confoo Web Conference](#). It is a follow-up to the first [TikiFest2010-Ottawa-BigBlueButton](#)

Table of contents

BigBlueButton is an open source real-time collaboration tool (Audio / Video / Screensharing / Chat / Whiteboard), which is built upon several open source components and with a focus on distance education.

When

- March 8th, 2011
 - 9h00 -> 17h BigBlueButton day
 - In the evening, we'll likely head off to [Brutopia](#) to meet the [Confoo.ca](#) crowd.

Where

Online

- tiki.bigbluebutton.org or live.tiki.org Dogfooding BigBlueButton

On site

- At the office of the fine folks of [Savoir-Faire Linux](#)
- 7275, Rue Saint-Urbain Office 200
- Montréal, QC H2R 2Y5, Canada

Who

Confirmed

- Marc Laporte
- Fred Dixon & Denis from BigBlueButton
- jonny B (UK)
- Gary (chibaguy) (via BBB 😊)
- [Daniel](#)
- Carsten & Dirk (Germany)
- Philippe Cloutier
- Etienne Lachance from [Evocatio](#)
- Michael Faille and Laurent Bounin from [Gestion-Ressources](#)
- Hélène Dufour
- You?

What

Fred & Denis (from the core BigBlueButton team) will be in Montréal for the full day so it's a great opportunity to get to know them and ask any question you may have.

- Introduction by Fred Dixon - BigBlueButton project leader and founder of Blindside Networks
- BigBlueButton Presentation
 - Current features
 - New features
 - Use cases
- Discussion about BigBlueButton business models
- Improvements and feature requests

- General discussions

Click on this image for the full mindmap (in French):

Also, we'll attempt to focus on remote participants. Let's have a lot of people and push the limits of the system!

Dogfood BBB for Remote Participation To Community Events

<http://code.google.com/p/bigbluebutton/wiki/RemoteParticipationToCommunityEvents>

Integrating BigBlueButton in other systems

Tiki (since version 5) offers a built-in integration with `BigBlueButton()`. You can try it out now at:

<http://live.tiki.org/>

If you are interested in integrating BBB in other systems, please do show up. At this event, an important topic is to improve the [interaction](#) of [BigBlueButton](#) with Tiki and any other application (Drupal, Joomla!, etc.). Also, if your project is in PHP, you can re-use Tiki code (licensed LGPL so include-able in other apps)
