TikiFestMuskoka

A follow-up to this event is [TikiFest2013-MontrealOttawa](#)
When

11-12-13-14-15 February 2013

Who

- Pascal St-Jean
- Nelson Ko
- Marc Laporte

Where

- [Muskoka](#)

What

- Lots of good discussion about the upcoming years
  - The essentials "Keep the lights on" -> [Tiki Admin Group](#)
  - Decentralize leadership, discuss priorities and state of all 18 [Teams](#)
  - Improve join-ability (from submitting a patch on dev.tiki.org to playing an active role in the project)
  - Dev process (planning, roadmap, decisions, etc.)
  - [Use cases](#) / Economic opportunities within the ecosystem

Big picture

The long term goal is to have an active committee of 2-4 people per [team](#). Some teams are doing well at the moment, and some are inactive.

Pascal, Nelson and Marc will increase their focus on the following teams. In each case, supporting and if necessary kickstarting. The goal is to increase participation of new / different people so that eventually, the team is fully functioning and autonomous.

Marc, Pascal and Nelson will make sure all the pages of each [Team](#) are up to date (ex.: get in touch with all identified team members and confirm if they still want to be active, cross out done tasks, etc.)

Marc Laporte

- Community, with Torsten
- Infrastructure, with changi
- i18n, with Olaf & Alain
- Performance, with LP
- Packaging, with Greg
