

## TikiMovies

*This page contains a collection of informal video material about [Tiki](#) that has been created by members of the Tiki community some may be out of date.*

This is a work in progress. Please, contribute with your own videos (see below some tips on how to do it) either for end users, or for admins), and add more links to Tiki-related videos below. To comment the videos, please follow the same format as current comments (Click + to expand notes).

Note that some videos are mirrored in different locations so, depending on your location, choose the one closest to you.

## Table of contents

---

### Video tutorials

<https://doc.tiki.org/Video-Tutorials>

### Smarty Movies

The *TikiWiki for Dummies Smarties* guide now includes Flash (SWF)-based movies, too:

- [Smarty Movies](#)

Several of the demo movies for **Tiki 9**. Check them out at

<http://twbasics.tikiforsmarties.com/Demo+Movies>

### Videos at tv.tiki.org

Many ways to use videos can be found here at the tiki.org community's server dedicated to manage video assets, although the site also needs updating - <https://tv.tiki.org>.

Here is a **complete inventory** of movies found:

<https://tv.tiki.org/Inventory>

### Videos on YouTube (in English)

Search further for Tiki Wiki at [Youtube](#).

### TikiWiki CMS/Groupware lightning talk at FOSDEM 2009

At Fosdem 2009, Marc Laporte, gave a lightning talk about TikiWiki (15 min).

Here: [Presentation Fosdem 2009](#)

### Introduction to Tiki in Catalan

See the full talk at: <http://seeds4c.org/CanBaste>

### Introduction to Tiki in Spanish

See the full talk at <http://seeds4c.org/Fscat2014es>

### Video-tutorials from a course in Spanish

Full information of the Course at: <https://seeds4c.org/CursoTiki>

## End-user Movies

[These movies](#) show how an end-user can interact with a Tiki-powered site.

- Creating a new wiki page
- Adding events to the calendar
- Submitting new directory resources
- Using Search
- Adding an RSS feed

These demos are hosted on [KeyContent.org](#) .

How to produce your own videos for free?

In order to produce your own videos, you can use, for instance:

- <http://recordmydesktop.sf.net> -> free software with GPL; GNU/Linux
- [Kdenlive](#) -> Free software with GPL; GNU/Linux
- [Camstudio](#) -> free software with GPL; Microsoft Windows only
- [Wink](#) -> freeware, available for GNU/Linux and Microsoft Windows
- [OBS Studio](#) -> freeware; GNU/Linux, Mac and Microsoft Windows

---

Who is working on this:

- [Sridhar](#)
- Dennis Daniel
- [Rick](#)
- [Xavi](#)
- [Daniel](#)
- [Gary \(chibaguy\)](#)
- [@Bernard Sfez / Tiki Specialist](#)
