

Try Tiki

Try a fully functional demo before installing Tiki. Demo.tiki.org/index.php is an unstyled HTML page showing basic instructions along with the directories of the various versions that you can enter to try Tiki.

Tiki.org demos

Use the following username and password to access the demo.tiki.org sites:

username: admin

password: 12345

The database of the demo sites below may be reinstalled any time. Use these demo sites to get familiar with Tiki, but do not expect to find your saved changes the next time you log in.

To install and try out Tiki on your own,
please see [Get Tiki](#).
