location: Voorburg, the Netherlands

date of birth: 30 July, 1966

day time job: information management for a dutch direct marketing company (don't worry, no spam)

why a (tiki)wiki

---

I'm trying to set up a school wiki for a primary school; starting out by seeding the site, [Tonke](#), with some information for pupils and parents in the coming months, so it will be an interesting place for them to contribute to starting the the next schoolyear in August 2005.

Since the target audience only speaks/reads Dutch, near perfect localization will be very important to this wiki.

my wiki experience

---

"None", rapidly upgrading to "hardly any".
