Who is, Drool?

Hi! My nick is Drool... Ask me about it, or just forget it, altogether.

My real name is Fredrik Reuterberg and is a soon to be 29 years old guy from Sweden. Always happy and likes to be around to help with things I know... And of course to learn things I don't know!

Reason why I'm here:

I stumbled over Tikiwiki, some time ago, and liked what I saw.

Have been using Tikiwiki for a while, now, at my webpage. *I love it!*

You can find the page at www.omnigamer.net but I warn you, the site is mostly in Swedish!

Projects I'm involved with:

- Currently I'm working on retranslating the Tikiwiki "Interface" (Language in menyes etc.) to Swedish, as som spelling errors and grammatical error, has wiggled their way into the file. *I'll get back with more info in a while!*
