

UserPagejnicho02

Hi,

I am a Director of an IT Consultancy based in the UK called First Light Associates. We build and manage systems, often using Open Source software with a particular interest in OpenOffice.org, Tutos, Mondrian and now TikiWiki.

We have converted our web site aimed at Small/Medium Enterprises to Tiki as a trial of the software and have been very pleased with the results. <http://www.firstlight.biz/>.

Outside of work I spend half my time down the gym, doing some building/DiY or flying down a hill on my mountain bike. 🤘

This is me ---->
