UserPagejreyes

I work on the development of two Tikiwiki modules:

- TikiDav: WebDav access to Tiki resources and OpenOffice wysiwyg editing of wiki pages.
- AulaWiki A set of tools for using Tikiwiki on education. The main tool *workspaces* is now part of Tiki 1.10

My Tiki sites:

- eScire.com: Information about the development of AulaWiki and TikiDav
- Colegio Maria Virgen: A spanish secondary school that use Tikiwiki and the first version of AulaWiki
