I'm trying to create a

[WIS Student Site](#)

Q. How do I create a link to a tiki object other than a wiki page e.g. forum or article?

Treating it as external link is not comfortable.

A. Currently they are treated as external links. But there are some plans to add))WikiWord-like((syntax for linking to other tiki objects.

ToDo

- Menus - how to create links deep into wiki?
- Announcements - Course page with announcements displayed and sebt by email (newsletters, articles + categories, any other ways)?
- how to make the fonts in edit box larger?
