

UserPagetibi

Hi,

i'm tibi and a fan of tiki and especially wiki. The idea of working to get better.  
I'm programmer in java and perl but i think its time to learn some php 😊.

I will start with testing and adding found bugs, and documentation.

[This](#) is my site. It is in dutch. It is about my neighborhood where i set up a lot of project (wifi, boat building, stuff with the government....)
