Hi

My name is Sridhar and I hail from Hyderabad, a city in southern India.

My personal blog is at [srikat.com](http://srikat.com).

A portal in postnuke that I built and maintain is at [telugumovies.net](http://telugumovies.net). It is for users who want to download telugu (an Indian language) files from IRC.

A site in geeklog I created is at [teluguvaariki.com](http://teluguvaariki.com). Here you can download e-books on tech topics like C++, Java free of cost.

You can mail me at [mircveerudu\(at\)yahoo.com](mailto:mircveerudu@yahoo.com).

Now that some of sourceforge mirrors for tikiwiki downloads aren't working, I've uploaded it to my webserver. **You can download tikiwiki\_1.7.2.zip from [here](#).**

I have another account in this site by the name of 'siridhar'. Henceforth I shall keep that as my main tikiwiki.org's account. So head over to UserPagesiridhar for the updated content on what's up w/ me.
