Where

- **live.tiki.org** via BigBlueButton

What

See **Webinars** for a detailed description of sections

Tiki 8 feature presentation (20 min)

This month will be Tiki **Draw** and Tiki **Docs**.

Examples of Tiki in Use (10 min)

Developer discussion (30 min)

- Tiki **Report**, by Robert Plummer
- Tiki **Connect** services (proposed by sylvie)
- Jison parser (proposed by sylvie)
- Revamped Tiki Trackers usability (proposed by Jyhem)
- Plugin**Convene** Jyhem has suggestions

Open Space and community discussion (30 min)

- How do you like the format of these webinars and how can we make them better?

Batch on our bug tracker

How can we improve **our bug tracker** up-to-dateness.

Previous discussion:

[http://dev.tiki.org/Batch+actions+on+the+bug+tracker](http://dev.tiki.org/Batch+actions+on+the+bug+tracker)
• Proposal 1:
  1. batch job ([https://doc.tiki.org/Batch](https://doc.tiki.org/Batch)) asking reporters to re-evaluate after x months of no change (including no new comments), and changing status to pending?
  2. changing status to pending or closed (to be discussed) with a field set to "outdated" after X years of inactivity on that item (including no new comments).
