Where

- [live.tiki.org](#) via [BigBlueButton](#)

What

See [Webinars](#) for a detailed description of sections

Tiki 8 feature presentation (20 min)

This month will be Tiki [Draw](#) and Tiki [Docs](#).

Examples of Tiki in Use (10 min)

Developer discussion (30 min)

- Tiki [Report](#), by Robert Plummer
- Tiki [Connect](#) services (proposed by sylvie)
- Jison parser (proposed by sylvie)
- Revamped Tiki Trackers usability (proposed by Jyhem)
- [PluginConvene](#) Jyhem has suggestions

Open Space and community discussion (30 min)

- How do you like the format of these webinars and how can we make them better?

Batch on our bug tracker

How can we improve [our bug tracker](#) up-to-dateness.

Previous discussion:

<http://dev.tiki.org/Batch+actions+on+the+bug+tracker>

- Proposal1:
 1. batch job (<https://doc.tiki.org/Batch>) asking reporters to re-evaluate after x months of no change (including no new comments), and changing status to pending?
 2. changing status to pending or closed (to be discussed) with a field set to "outdated" after X years of inactivity on that item (including no new comments).

batch on trackers
