

Workshop: Tiki for a Web Agency

Benefits: <http://tiki.org/show:Tiki+for+Web+agencies> (click on page to view slideshow)

Workshop topics

- Installing / upgrading via SVN or via 1-click installers: <http://tiki.org/1-click+installers>
- How to customize Tiki in a way which keeps upgrades easy
- Configuring a site, and export profile for easy re-use.
- While, for the typical project, you should be able to do 90-95%+ of the work in-house, there will be times where you need assistance. We will discuss how to get ad hoc help for Sysadmin / debugging / helping with overflow of work, hosting, monitoring, help with configuration, etc.
- [Convert a site installed via FTP to now use SVN](#)
