Where

Probably <https://tiki.org/Live>

If you have a slow Internet connection, <https://tiki.org/Live> offers a way to call in with a regular phone. To test this, you can use the alternate room at [BigBlueButton-test](#). You must join the room (requiring Flash) and you will see the call in number there.

And if there are issues (ex.: Flash), we'll use <https://meet.jit.si/i18n.tiki.org>
