

## Reshuffle of the Tikiwiki.org forums

patvdy - 03 Sep 2003 10:50 GMT-0000

We are currently moving the forums on tikiwiki.org around a bit to better accommodate the needs of our growing community. Posts that were submitted in appropriate forums are being moved to a better location. Most of these are 'support'-type of messages for which we have created a new category 'Tikiwiki support' and some new forums that are specific for getting help with Tiki:

- Architecture/Installation
- Features/Usability

If needed we will add more forums in the future. If you are having trouble finding old posts then either have a look in the newly created forums.

Sorry for the inconvenience the reshuffling may cause but we think it will serve the Tiki community well in the end!

Note: please do not use the shoutbox for asking support questions. Any answers you get in the shoutbox don't serve other people with similar problems as all shoutbox content is very temporary.
