

Tiki 6.1 Beta 1 Now Available

Rick - 08 Dec 2010 00:19 GMT-0000

The Tiki Community has released the first beta of Tiki 6.1. This release offers many new features, fixes, and upgrades. You can download the Tiki 6.1 beta 1 directly from SourceForge:

<http://sourceforge.net/projects/tikiwiki/files/Tiki%206.x%20-Rigel-/> . To learn more about what's new in this release, see <http://doc.tiki.org/Tiki6>.

The entire Tiki Community is encouraged to download and test this latest version. Please report all issue to Tiki Developer's site: <http://dev.tiki.org>. Additional beta versions will be released, as needed. Look for the final Tiki 6.1 release before the end of 2010.

Tiki administrators are reminded that this is a beta version and may not be suitable for specific production environments.
