

install wiki-plugins/wikiplugin_xspf_player from mods.tiki.org

upload your mp3s to some dir accessible and served by webserver, remember URLtoMP3

use xspf wikiplugin in wiki-type tikiwiki object to put video online:

```
{XSPF(song=URLtoMP3)}{XSPF}
```

or create an xspf playlist xml file and use the playlist feature:

```
{XSPF(playlist=url_to_xspf_playlist,player=full)}{XSPF}
```

[Musicplayer](#) has own license

the flowplayer wiki-plugin is GNU/LGPL as most of Tikiwiki code
