

We have a good integration of the JGraphPad applet within Tiki.

2003/10/12 Jgraphpad (version 3) is working well for [me](#) on tikiwiki.org (Tiki 1.8 CVS)

- {SF(aid=>780628,tag=>rfe)} {SF}
- We have JGraphPad object history. However, only the admin can access them. We would need to add a permission level. ex.: group editor can rollback drawing

Competition and standards

[Twiki](#) offers integration with [JHotDraw](#)
