The main topic of this event is to improve both Tiki, [BigBlueButton](#) and the [interaction](#) between the two. [BigBlueButton](#) is an open source real-time collaboration tool. (Audio/Video/Screensharing/Chat), which is built upon several open source components and with a focus on distance education.

[Tiki5](#) offers a built-in integration with [BigBlueButton](#). You can try it out now at: <http://live.tiki.org/>

Tiki at the Open Source Technology Showcase
