Competition and standards

List of other products with similar/interesting/related features.

Here I would like to see some "editorial" content. How do our features compare to others?

Invision forums

In comparison to Invision forums, where you can upload many folders containing avatars, TW lacks in flexibility. As a result, bandwidth usage is an issue when user are trying to pick an avatar. Instead of having about 600 images loaded, I would like to group them by folders where the user would choose among less images.

CVS Doc section

This is where new features being developed and only in CVS are documented. When the CVS becomes RC/official release, the info in the CVS docs is transferred to update the official docs (FeatureXDoc).

Discussion/participation
