Hello! My name is Bernard Sfez.

I'm a **Tiki specialist**, I manage web oriented projects and lead developers to successful project launch.
I am full of **energy**! If there is a problem to solve, there is a problem no more!

I've been for years an active member of the Tiki community.
I'm a proud **Tiki Admin** involved in almost every aspect of this project.
I helped and successfully contribute to the project in many way (code commit, QA, release coordinator, community manager, etc.)

How can I help you ?

1. **You** are looking for a **Tiki Specialist** with extended knowledge in Content management systems, Tiki Wiki and WikiSuite including IT Administration, Security and Database management background.

2. **You** need someone with deep process integration experience and creative problem solving abilities with positive attitude to meet objectives and budget.

3. **You** want someone you can trust with 20 years of consolidated experience which covers many fields including eCommerce, ERP/CRM, Social Networks, Mobile development, SEO, UI/UX, Servers and network administration.
